//                               SAINTlogin (c) www.saintlogin.com
//                               *****
// Webmaster customizable Client-Side login page
// for PHP (Unix, APACHE) web servers
// *****

// Set up a timer for the saintlogin 3-step processing

DowaitTimer();

// The Following forms are used to post the calls to the remote functions on the
host side (saintlogin_php.php)

// YOU CAN MODIFY THE APPEARANCE OF THE LOGIN FORM PAGE TO SUIT YOUR NEEDS,
// BUT REMEMBER NOT TO CHANGE NAMES AND IDS OF THE OBJECTS HEREIN
// ALL OF THE FORMS, EXCEPT FOR THE LOGIN FORM, DO NOT CONTAIN VISIBLE ELEMENTS,
THEY'RE USED
// TO MAKE IT POSSIBLE INVOKING SERVER SIDE FUNCTIONS OF THE SAINTLOGIN SCRIPT
ENGINE.
